

LHML General Health and Safety Policy

This is the statement of general health and safety policy and arrangements for Lawton Hall Estate.

Lawton Hall Estate is a private estate comprising 34 properties set in communal grounds of approximately 17 acres. Properties on the estate are in the main family houses. The grade II listed Lawton Hall was completely renovated. In 2003/05 and contains 9 properties. Access to 3 of these properties is through a communal main entrance opening onto a lobby area with stairs to the first floor, giving access to each property's private entrance door. Access to the other 6 properties in Lawton Hall is by each property's separate external entrance door. There is a communal open plan garage block with vehicle access via an electric gate and pedestrian access via a locking gate.

All other properties on the estate are new builds: all building work was completed in 2005. Nos 1-5 of The Stables and Nos 1-7 of The Coach House are mews properties: these properties in The Coach House have integral garages and there is an open access garage block for properties in The Stables and for No 8 The Coach House. The 12 properties in The Gardens and No 8 The Coach House are all detached properties. Some properties in The Gardens have garages adjacent to their properties and some, including No 8 The Coach House, have garages within garage blocks near to their properties. All properties on the estate, except those that are detached, have some common parts e.g., roofs and load bearing walls.

The communal grounds include a Grade II listed wall, woodland areas, flower beds, formal lawns and meadows, one of which abuts a small lake. The lake is not part of the estate but is accessible from the estate. The estate's roadways, paths, the visitors' carpark, bin stores, electric gates and estate lighting are also communal.

The leaseholders of the properties are also shareholders in Lawton Hall Management Limited, which is a residents' management company established to maintain the estate on behalf of all leaseholders and the superior landlord. LHML is responsible for managing the estate's service charge, procuring goods and services for the general upkeep and maintenance of the communal parts and communal areas of the estate, preserving the look and feel of the estate, and ensuring that the actions of individuals do not inhibit the overall enjoyment of all leaseholders.

LHML does not employ any staff: the Board of Directors purchases goods and services from several specialist companies to carry out repairs and maintain the estate. For the purposes of health and safety directors and other volunteers will be treated as "employees" and communal areas and parts of the estate will be treated as a workplace, as required by health and safety legislation and case law (*Westminster City Council v Select Management Ltd [1984]*).

The Board of Directors of Lawton Hall Management Limited have overall responsibility for health and safety in the communal areas and parts of the estate. The directors hold non-executive roles and are unpaid. Directors are appointed by shareholders and serve until their term of office expires unless reappointed.

Leaseholders who let out their properties are responsible for ensuring that their tenants have a copy of this Health and Safety Policy statement and LHML's Risk Assessment.
